ST JOHNS RIVER WATER MANAGEMENT DISTRICT

Pre- Application Information Exchange Tool

Pre-application discussions are encouraged to facilitate design collaboration, thereby streamlining the permitting process. The Exchange Tool is the suggested instrument to document and share information during office, field and electronic pre-application discussions. You are encouraged to populate applicable portions of the Exchange Tool and identify critical subject areas for discussion. The Exchange Tool will also be used as the meeting agenda to take real-time notes and document discussion with District staff. The Team Member feature on the District's E-Permitting web site is another useful tool in enhancing the pre-application process. Information shared at pre-application meetings reflects best available information at that point in time. Agency action is based on information submitted during the formal application process and Rules in effect when the application is completed.

Fee:

Verification of Exemption (62-330, F.A.C.)

- Under 62-330.050 and 62-330.051 \$100
 Under 62-330.0511 (Minor Silviculture Systems) \$0

General Environmental Resource Permits (62-330, F.A.C.)

· General ERPs (formerly Noticed General Permits) \$250

Individual and Conceptual Environmental Resource Permits (Excluding Mitigation Banks) (62-330, F.A.C.)

- <10 acres project area and no work in wetlands (+ no boat slips) \$490
- <10 acres, <1 acre work in wetlands, < 10 new boat slips \$1,190 <40 acres, <3 acres work in wetlands, <30 new boat slips \$2,110
- <100 acres, less than 10 areas work in wetlands, and less than 50 slips
- \$5,610
- <640 acres, less than 50 acres work in wetlands \$9,120
- Project exceeds thresholds above \$11,220

Specified fee for Individual and Conceptual ERPs

- · Environmental restoration or enhancement projects \$250
- · Stormwater retrofit projects \$250

Major Modifications of Individual and Conceptual ERPs

Onsite/ Offsite:

Comments:

- Major modification under 40C-1.603(5)(d)1 50% of fee for a new permit
- Major modification w/increase in project area Same fee for a new permit for the activity proposed in the modification
- All other major modifications under 40C-1.603(5)(d)3 50% of initial application

Minor Modifications of Individual and Conceptual ERPs

- · Permit transfers, statutory extensions, correct minor error with no technical review \$0
- · All other minor modifications 25% of initial application
